

London Underground

London Underground engineering works

December 2015

Station Road Closure – 8pm Saturday 16th January to 5am Monday 8th February 2016

Victoria Close Part Closure – Wednesday 6th January to Thursday 14th April 2016

As part of the continued investment in modernising the TfL transport network, London Underground are carrying out preparation works to the rail bridge on Station Road ahead of fully replacing the bridge over Easter 2016. The works will involve using the road space for the construction phases, requiring Station Road to be closed between 8pm Saturday 16th January to 5am Monday 8th February 2016. Access for pedestrians passing through the bridge will be maintained at all times via the western walkway.

Part of Victoria Close will also be closed from 6th January to 14th April 2016 to allow construction of the bridge deck. The subway will remain open for pedestrian access but we would advise against drop off and turning at Victoria Close.

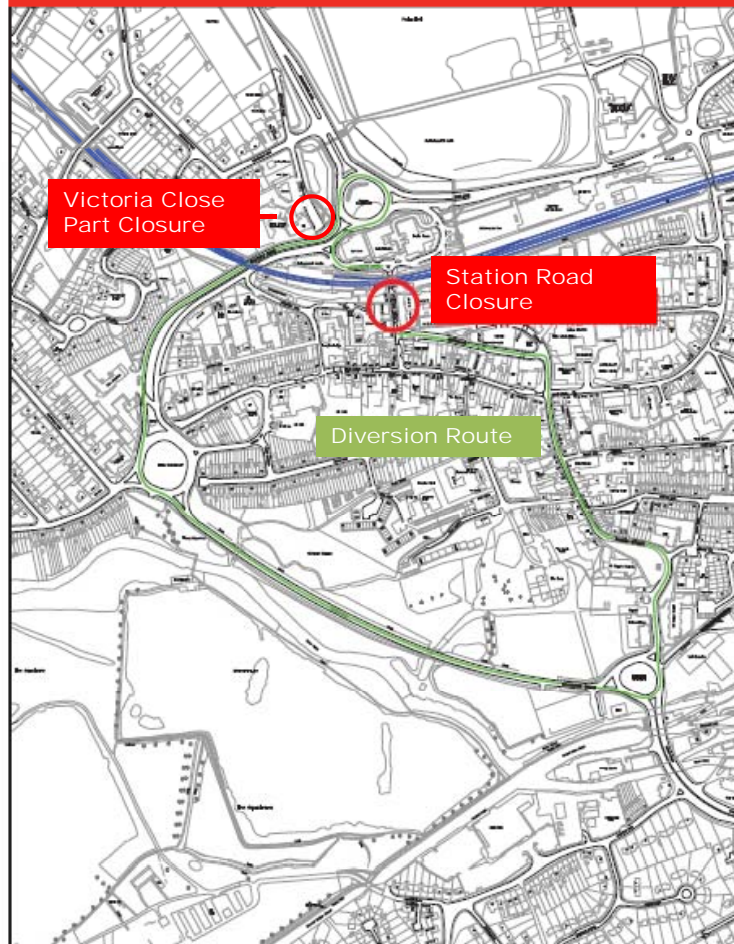

If you have any concerns regarding the project please contact London Underground via our helpline shown below:
